PREFACE.

THESE Coins were accumulated by a well-known Nobleman, whose Collection of Nineteenth and Twentieth Century Coins of the entire world was unrivalled. The Portion here catalogued comprising the Coins of Great Britain and her Colonies contains many great rarities, in gold, silver and the baser metals.

The Notes by Pistrucci (referred to and translated under lots 32, 33, 37, 46, 53, 88 and 89) were until recently with the Coins themselves.

Where possible the pedigree of each piece is given, but although many of the Coins have come from famous Cabinets, such as those of the Montagu and Murdoch Collections, detailed particulars are not available.

Attention is particularly drawn to the following:

The Five-Pound Pieces.

The Pattern Crowns for 1817 and 1818 (lots 61-65 and 72).

The Pattern Crowns of George IV.

The British Columbian Twenty-Dollar Piece (lot 636).

The interesting Series of countermarked Coins of the West Indies and Australia.

The Gold Australian Ingots (lots 693-4-7-8).

December, 1921. SOTHEBY, WILKINSON & HODGE.

NOTE.

It has been considered advisable to include in the catalogue the whole of the Coins collected in this series, but certain lots of current Gold Coins may have to be withdrawn from the sale, if the Government authorities so decide.

Sizes of the Coins. *Scale of Mionnet.*

*** From the Brice and Montagu cabinets.

12 **Pattern Guinea**, 1813, by *Thomas Wyon*, after *Marchant's* model, *obv.* as last, but smaller head, one tye-end at side of neck ; below, W. ; *rev.* BRITANNIARUM REX FIDEI DEFENSOR., shield of arms, crowned, dividing date ; lower part of the shield garnished with rose, shamrock and thistle ; *edge*, plain, *brilliant and of the highest rarity with this edge* [Pl. I] 1

*** From the Wigan, Brice and Montagu collections.

13 **Pattern Guinea**, 1813, by *Thomas Wyon*, as before, but square garnished shield, not decorated ; *edge*, plain, *brilliant and very rare* [Pl. I] 1

14 **Pattern Guinea**, 1813, by *Thos. Wyon*, as the current Military Guinea, but with smaller lettering on the reverse ; *edge*, grained, *brilliant and extremely rare with the small lettering* [Pl. I] 1

16 **Proof Half Guinea**, 1763, by *Tanner*, no hair below truncation, lovelock ; *edge*, plain, *brilliant and rare* [Pl. I, no. 18] 1

17 **Proof Half Guinea**, 1764, by *Tanner*, similar, but the laurel wreath has berries ; *edge*, plain, *brilliant and rare* 1

18 **Proof Half Guinea**, 1775, by *Yeo*, similar, but bust as this artist's Five-Guinea Piece, *brilliant and rare* [Pl. I, no. 16] 1

20 **Proof Half Guineas**, 1787, as last, and 1813, by *Thos. Wyon*, Military type ; *edge*, obliquely grained, *both brilliant and scarce* 2

21 **Pattern Seven-shilling Piece**, 1776, by *Yeo*, *obv.* as Half Guinea in lot 18 ; *rev.* MAG. BRI. FR. ET. HIB. REX. 1776, lion, crowned, standing upon crown ; *edge*, plain, *brilliant and rare* 1

22 **Pattern Quarter Guinea**, 1764, by *Tanner*, type of the Half Guinea of this year ; *edge*, plain, *brilliant and rare* [Pl. I] 1

24 **Pattern Five-Pounds**, 1820, by *Pistrucci*, as before, but with edge inscribed DECUS ET TUTAMEN ✻ ANNO REGNI LX ✻, *brilliant and extremely rare, as only twenty-five were struck* [Pl. I] 1

N.B.—*All Coins are in their correct metal unless otherwise stated.*

25 **Pattern Five-Pounds**, 1820, by *Pistrucci*, as before, *brilliant and extremely rare* 1

26 **Pattern Five-Pounds**, 1820, by *Pistrucci*, as before, *very fine and extremely rare* 1

27 **Pattern Five-Pounds**, 1820, by *Pistrucci*, similar, but struck in *silver*; the artist's name is unusually distinct under the bust, so this was probably a trial piece before the gold coins were struck, *extremely fine and probably unique in this metal* [Pl. II] 1

*** From the Pistrucci and Murdoch collections.

28 **Pattern Five-Pounds** (*rev.* only), by *Pistrucci*, in *lead*, struck from the unfinished die before the great artist had added his name and also the second leg of the dragon, *very fine and of great rarity, only two examples were struck* 1

29 **Pattern Two-Pounds**, 1820, by *Pistrucci*, exactly as the Five Pounds, but omitting the artist's name on both sides, his initials B. P. are placed, however, in the exergue on the reverse, and W. W. P. below the broken shaft; *edge*, plain, *brilliant and probably unique with this edge* 1

30 **Pattern Two-Pounds**, 1820, by *Pistrucci*, similar, but inscribed edge, *brilliant and extremely rare, only sixty pieces having been struck* [Pl. II] 1

31 **Pattern Two-Pounds**, 1820, by *Pistrucci*, similar, *brilliant and extremely rare* 1

32 **Pattern Two-Pounds**, 1820, by *Pistrucci*, similar, but struck in *silver, brilliant and of the highest rarity, as only two specimens were struck in this metal* [Pl. II] 1

*** From the Pistrucci and Murdoch collections.

"Enclosed are two proofs of the Two-Pound Piece of H.M. George III, struck in pure silver. They were struck by me at the Royal Mint in London, as trials for the width of the flan, and to see whether the letters on the edge of the gold coins would come exactly in the centre. I did this with the permission of Mr. Pole, mint-master, and I did these experiments in silver, because there was no gold prepared as yet to strike. These proofs are of the highest rarity, as being the only two struck in that metal, and rarer still as being the first two impressions from the die. They remained in my possession with the permission of Mr. Pole; I paid their intrinsic value to Mr. Bradby, clerk to the mint.—B. Pistrucci."

33 **Pattern Two-Pounds** (*rev.* only), by *Pistrucci*, struck from the unfinished die ; *edge* plain, *extremely fine and unique* [Pl. II] 1

*** From the same collections.

"The proof is that of the *rev.* of the Two-Pound Pieces of George III and George IV. It is of the highest rarity as being the only one struck from the original die without any retouching, as shown by the dot which is found on the body of the horse. This piece is my property, as it was given to me by Mr. Pole ; it was the first trial for the size of the Two-Pound Piece, and the first done after (*sic*) obtaining the office of Chief Engraver at the Mint.—B. PISTRUCCI."

34 **Pattern Sovereign** (or **Guinea**), 1816, by *Thos. Wyon*, after jasper model by *Pistrucci* ; *obv.* GEORGIUS III DEI GRATIA, laureate bust in high relief to right, neck bare ; *rev.* BRITANNIARUM REX FID. DEF. (commencing at the bottom of the coin), square garnished shield crowned, date below, divided by point of the shield ; *edge*, plain, *brilliant and very rare* [Pl. II] 1

35 **Pattern Sovereign**, 1816, by *Thos. Wyon*, similar, *brilliant and very rare* 1

*** From the Mackerell collection.

36 **Pattern Sovereign**, 1816, by *Thos. Wyon*, struck in *silver*, similar ; *edge*, obliquely grained, *unpublished with this edge, extremely fine and of the highest rarity* 1

*** Believed to be from the J. Marshall, Bricc, Montagu and Murdoch collections.

37 **Pattern Sovereign**, 1816, by *Thos. Wyon*, as the last, but larger bust and smaller lettering ; *edge*, grained, *extremely fine and unique* [Pl. II] 1

*** From the Pistrucci and Murdoch collections.

"Proof in gold of the Sovereign of George III, which was never issued to the public ; unique, and in consequence rare. This was copied by Thomas Wyon, Chief Engraver at the Mint, from a cameo made by me for Sir G. Barcke. It never came out because the work copied from mine made the relief too high, and thus it would have been impossible to coin. The Mint-Master, Mr. Pole, was convinced that the reason why this piece was unsuitable rests in the fact that the original was not calculated for a coin, and therefore the sovereign was never issued. This said proof was presented to me by Mr. Pole, Mint-Master, and was the first and last struck, the die having broken, as may be seen from the proof of a shilling, which I have with the same head, and the visible flaw in the flan in a straight line on the face.—B. PISTRUCCI."

N.B.—*All Coins are in their correct metal unless otherwise stated.*

38 **Pattern Sovereign** (or **Shilling**), undated, by *Thos. Wyon*, struck in *silver*; *obv.* almost identical with lot 34, but from a different die; *rev.* same type, but no date, legend commencing at the top and going right round the bottom; *edge*, grained, *of the highest rarity, this and the following two lots are the only three known, brilliant* [Pl. II] 1

*** From the Cuff, Bergne, Brice, Montagu (1888) and Murdoch collections.

39 **Another**, as before, struck in *silver, equally fine and of great rarity* 1

*** From the Clarkson and Mackerell collections.

40 **Another**, as before, struck in *silver, brilliant, except for slight abrasion on obverse edge* 1

41 **Pattern Sovereign**, 1816, by *Pistrucci*, *date both sides*; *obv.* GEOR : III D : G : BRITT : REX F : D : 1816, large bust, pointed truncation, almost as the bust upon the shillings of this date; *rev.* similar to lot 37; *edge*, grained, *extremely fine and very rare* [Pl. II] 1

*** From the Mackerell collection.

42 **Pattern Sovereign** (*obv.* only), 1816, by *Pistrucci*, struck in *silver*, on an Anglo-Hanoverian coin, as last, *extremely fine and unique.* **Hanoverian Pattern**, by *Mills*, in *copper* (size of a sovereign), C under bust, *fine and rare.* Also a **Pattern** for a **Guinea**, or for a **Hanoverian Pistole**, by *Lewis Pingo*, in *silver, brilliant and very rare* 3

43 **Pattern Sovereign**, 1816, by *Thos. Wyon* and *Pistrucci*; *obv.* GEORGIVS III D : G : BRITT : REX F : D :, large laureate bust to right, presenting both shoulders; *rev.* as lot 41; *edge*, plain; the *obv.* is by *Wyon* from a cameo by *Pistrucci, brilliant and extremely rare* [Pl. II] 1

44 **Pattern Sovereign**, 1816, as before, *equally fine and rare* 1

45 **Pattern Sovereign**, 1816, as before, but unusually heavy, *extremely fine and of great rarity* 1

46 **Proof Sovereign** (*rev.* only), by *Pistrucci*, struck without a collar, and therefore with plain edge, *very fine, only one other struck* 1

*** From the Pistrucci and Murdoch collections.

"The reader must be aware that this work was the first I did with the graving-tool, without ever having seen anybody engraving in steel; it is therefore not one of my best, but one should bear in mind that it requires ten years' practice to do such work well. I did it to satisfy Mr. Pole, who ordered it. These proofs were struck from a die which had passed four times through the fire, and got worse each time, the action of the fire spoiling the edges, and I am only surprised that they are as good after so many experiments. I had these proofs made, as I wanted to see the effect of the hand holding the bridle, as, after having completed my work from my model, they made me change the hand, which was at first showing a portion of the arm, to what is now seen on the current coins. These are of the highest rarity and unique. Presented by Mr. Pole.—B. PISTRUCCI."

47 **Proof Sovereign** and **Half Sovereign**, 1817, by *Pistrucci*; *edge*, grained; *brilliant and rare, especially the half sovereign* 2

48 **Another lot**, similar 2

49 **Proof Sovereign and Half Sovereign**, 1818, as before, *brilliant and very rare as proofs* 2

50 **Another** lot, similar 2

51 **Proof Sovereign and Half Sovereign**, 1820, as before, *brilliant and of the highest rarity as proofs* 2

52 **Proof Sovereign**, 1817, and **Proof Half Sovereign**, 1818, as before, *brilliant and rare* 2

53 **Pattern Half Sovereign** (or **Sixpence**), by *Thos. Wyon*, *obv.* GEORGIUS III DEI GRATIA, laureate head to right in high relief; *rev.* BRITT: REX FID: DEF: garnished shield within the Garter, surmounted by crown, dividing date; *edge*, plain, lettering on both sides very small, bust similar to the sovereign in lot 37, *brilliant and extremely rare* [Pl. II] 1

"Proof in gold of a head which was copied from one of my cameos by Mr. T. Wyon, First Engraver at the Mint, and the puncheon of which was afterwards retouched by me. The workmen at the Mint were unable to strike this piece on account of its too high relief, and would not give themselves the necessary trouble in order to please Mr. Wyon, who could not bear with good grace that a work of his, retouched by me, should be issued. The same head was struck on a sovereign and on a shilling, which, however, were never issued; therefore it is of the highest rarity and unique. It was presented to me by Mr. Pole, of whom I asked the favour of keeping a record of my work. —B. PISTRUCCI."

N.B.—*All Coins are in their correct metal unless otherwise stated.*

54 **Pattern Half Sovereign** (or **Sixpence**), 1816, similar but *edge* grained, *imperfectly struck* (see note to last), *but believed to be unique with this edge* 1

55 **Pattern Half Sovereign** (or **Sixpence**), 1816, struck in *silver*, similar, *brilliant and very rare* 1

56 **Two** more similar struck in *silver*, one struck without a collar, *both brilliant and very rare* 2

57 **Pattern Half Sovereign**, 1816, by *Thos. Wyon*, *obv.* GEOR : III D : G : BRITT : REX F : D : 1816, large laureate bust to right ; *rev.* BRITANNIARUM REX FID : DEF : rose, thistle and shamrock on single stem under a crown ; *edge*, grained, *unpublished of this date, extremely fine and of the highest rarity* 1

58 **Pattern Half Sovereign**, 1820, by *Thos. Wyon*, similar but for date and *edge* which is plain, *brilliant and exceedingly rare* 1

59 **Another**, similar, *brilliant and exceedingly rare* [Pl. II] 1

60 **Another**, similar, *brilliant and exceedingly rare* 1

61 **Pattern Crown**, 1817, by *Pistrucci*, *obv.* GEORGIUS III DEI GRATIA BRITANNIARUM REX F : D : 1817, large bust to right, laureate, tie bow and two ends ; *rev.* St. George and Dragon within the Garter, the latter ruled with fine horizontal lines, a minute pellet upon the horse's body ; *edge*, plain, struck on a thick flan, showing the very slight flaw on the *obv.*, which caused the die to be destroyed, *in mint condition and of the greatest rarity, only four having been struck* [Pl. II] 1

*** From the Pistrucci and Murdoch (£35) collections.

62 **Pattern Crown**, 1817, as the preceding in all respects ; another of the four known examples, *in mint condition and of the highest rarity* 1

*** From the Hawkins, J. Marshall, Brice, Montagu and Murdoch (£28 10s.) collections. Mr. Montagu received £300 for lots 62, 64, 65 and 72.

63 **Pattern Crown** (*reverse* only), from the same die as the previous two lots ; *edge*, plain, *in mint state and of the very greatest rarity as only two were struck thus* 1

64 **Pattern Crown**, 1817, by *Pistrucci*, *obv.* GEORGIUS III DEI GRATIA BRITANNIAR : REX F. D', bust as in lot 61 but with three leaves at top of wreath instead of four; *rev.* similar but garter narrower, beaded border both sides; *edge*, *incusely* inscribed on a sunk band, DECVS ET TUTAMEN · ANNO REGNI QUINQUAGESIMO ℋ SEPTIMO, flan usual size; *wt.* 435 *grs.*, *very fine and probably unique* [Pl. III] 1

*** From the Cuff, Forster, J. Marshall, Brice, Montagu and Murdoch (£25 10s.) collections (see note to lot 62).

65 **Pattern Crown**, 1817, by *Pistrucci*, *obv.* GEORGIUS III D : G : BRITANNIARUM REX F : D., 1817, bust similar; *rev.* similar but larger lettering and outer beaded border; *edge*, inscribed in raised letters within fine cord borders, DECUS ET TUTAMEN · ANNO REGNI LVIII; *wt.* 436 *grs.*, *perfectly struck and in brilliant condition*, *probably unique* [Pl. III] 1

*** From the Hawkins, Bergne, J. Marshall, Brice, Montagu and Murdoch (£34 10s.) collections (see note to lot 62).

66 **Pattern Crown**, 1817, by *W. Wyon*, *obv.* GEORGIUS III D : G : BRITANNIARUM REX, 1817, his laureate bust draped right; below truncation, W. WYON; *rev.* INCORRUPTA FIDES VERITASQUE, large crowned shield (somewhat similar in design to Simon's pattern for Cromwell); *edge*, plain, *brilliant and extremely rare* 1

67 **Another**, similar, *equally fine and rare* 1

67A **Pattern Crown**, 1817, by *W. Wyon*, struck in *gold*, similar to last, *brilliant and of the greatest rarity* [Pl. II] 1

*** The Murdoch specimen fetched £89.

68 **Pattern Crown**, 1817, by *W. Wyon*, *obv.* similar but smaller lettering and bust undraped; *rev.* FOEDUS INVIOLABILE, three figures emblematical of the three kingdoms (the "Three Graces"), with emblems and shield; the artist's name in full in the field; *edge*, plain, *brilliant and very rare* [Pl. III] 1

69 **Pattern Crown**, 1817, by *W. Wyon*, same type, but struck in *copper*, *extremely fine and of the greatest rarity in this metal* 1

70 **Pattern Crown**, 1818, by *Pistrucci*, *obv.* GEORGIUS III D : BRITANNIARUM REX F : D : *large* head laureate to right; artist's name in full beneath; *rev.* St. George and Dragon within the Garter which is ruled with fine horizontal lines; *edge*, plain; a toothed border each side; struck from a finished die, *brilliant and extremely rare* 1

N.B.—*All Coins are in their correct metal unless otherwise stated.*

71 **Pattern Crown**, 1818, by *Pistrucci*, similar but *edge* inscribed in letters that do not occupy the whole width of the flan, *brilliant and believed to be unique with this edge* [Pl. III] 1

*** From the Murdoch (£30) and Wakley collections.

72 **Pattern Crown**, 1818, by *Pistrucci*, as the preceding two coins, except that the die is not polished; the toothed border on the *obv.* is coarser and altogether missing on the *rev.*; the garter is broader and has larger lettering; *edge*, plain; *wt.* 435 *grs.*; *as struck, but surface unpolished, of the greatest rarity, probably unique* [Pl. III] 1

*** From the Hawkins, Bergne, J. Marshall, Brice, Montagu and Murdoch (£30) collections (see note to lot 62).

73 **Pattern Crown**, 1818, by *Pistrucci*, in *lead*, similar to lot 69, but on rather larger flan, *in very fine condition and unique* 1

*** From Pistrucci's own collection, as are the next three.

74 **Pattern Crown** (*obv.* only), 1818, by *Pistrucci*, in *lead*, similar but with very heavy toothed border, *in mint condition, very unusual for a lead piece, and unique* 1

75 **Pattern Crown** (*obv.* only), 1818, by *Pistrucci*, in *lead*, similar, but before the great artist had added his signature, *in mint condition and unique, of great interest as from the unfinished die* 1

76 **Pattern Crown** (*obv.* only), 1818, by *Pistrucci*, struck in *lead*; a trial piece struck by the artist, showing only the completed head without signature or legend; the field is divided into squares, and the head surrounded by circles for the guidance of the artist, *in mint condition, of great interest, and of the greatest rarity* 1

77 **Trial Pieces** (4) in *lead*, showing the evolution of a **Pattern Crown** (*obv.* only), 1818, by *Pistrucci*, different type from current crown, legend similar; the bust is small, hair has less treatment, neck shows muscles, and the ear is unnatural (*a*) general outline of bust in relief, (*b*) wreath is added, (*c*) hair is worked in and bust is generally touched up, (*d*) the legend is added; on all can be seen the lines dividing the field into squares, and on the first three are circles for the legend, *extremely fine and unique, of great interest as showing how this famous artist made his dies* 4

*** From the Pistrucci collection.

78 **Pattern Crown** (*obv.* only), 1818, by *Pistrucci*, in *lead*, type as the current coin, bust is the same size, but the piece is struck from a larger die on a very large flan, bust differs very slightly, lettering larger and with very heavy toothed border, die shows slight crack, so was probably destroyed, *believed to be the only specimen of this pattern, in mint condition* 1

*** From the Pistrucci collection.

*** From the Pistrucci and Murdoch collections.

"To do this work (*i.e.* the Half Crowns) which was my second in steel I had from time to time incuse proofs made of the puncheon in order to verify the perfection of the flan before going on with the work. This I did with the permission of the Master of the Mint, because I did not want Mr. Wyon to deceive me, as he had done previously in making me work on a false (uneven?) surface, and I explained that I could not get along with the work which was quite lost, and that I was obliged to begin again three times, because I had been given a bad puncheon to work upon. At the end the mint master remonstrated with Mr. Wyon, who was obliged to give me a good puncheon, which is the one with which I produced afterwards the Half Crowns of George III, showing the neck only.—B. PISTRUCCI."

89 **Proof Half Crowns** (3), 1816, one with plain and one with milled edge, 1817 (small head), plain edge. **Trial Half Crown** (*obv.* only), 1816-7, but from a die before the date was properly altered, which reads 181–, *all brilliant and rare, the last probably unique as the features differ slightly from the current coins* 4

*** From the Pistrucci and Murdoch collections.

"Proof of the head of the Half Crowns of George III, a work by T. Wyon, chief engraver at the Mint, and retouched by me with the diamond point. This head was copied from one of my cameos preserved at the Mint, but was never issued, the puncheons of the said head retouched by me, were burnt several times at the Mint. They are extremely rare as, although they resemble the Half Crowns in circulation, they differ much in the face, which on the common coins is more morbid. Given to me by Mr. Pole.—B. PISTRUCCI."

90 **Proof Half Crowns**, 1816, two with plain and two with grained edges ; 1817 (small head), one with plain edge, *all brilliant and rare* 5
